

ANJAM AL REYADAH

Optimum Corrosion Control, Power &
Mechanical Solutions

www.anjamgroup.com

INTRODUCTION

ANJAM AL REYADAH (ANJAM)

ANJAM is ISO 9001-2015 certified company that provides specialized corrosion control products and services, assets reliability and corrosion management solutions. Also provides Power Protection and Automation systems & solutions. As well as various range of Valves and composite Pipes.

ANJAM caters for increasing life expectancy, enhancing operating range, and improving efficiency and safety of new or old equipment and infrastructure.

ANJAM's passion is to offer comprehensive solutions using the latest world-class technologies.

VISION, MISSION, AND VALUES

VISION:

To be a Benchmark for Specialized Solutions providers in the areas of Corrosion Control, Power Protection, Control & Automation as well as Valves & Composite pipes in the Middle East.

MISSION:

- Provide comprehensive practical solutions to our customers with supreme quality products and customer-friendly services
- Adopt the most efficient business processes.
- Partner with the best in class for the provision of the solutions.
- Commit to the highest levels of safety & environmental friendly practices.

VALUES:

- Dedication & Care
 - Professionalism
 - Transparency & Accountability

Specialized Solution for Optimum Corrosion Control

Coating and Sealing

Tesla NanoCoatings: a two-coat nanotechnology-based coating system features low VOC epoxy primer and topcoat with significant advantages not only in corrosion protection but also in application time and effort. Formulated with carbon nanotubes, it makes the coating tough, flexible and durable on weather, UV light, and abrasion. Tesla Nano-Coatings helps save up to 30 % of project cost.

Specialized Solution for Optimum Corrosion Control

Measurement

TINKER & RASOR

Tinker & Rasor: offers Holiday Detectors, Utility Locators and Cathodic Protection Instruments that are widely used throughout the world for the mitigation of corrosion. These products have proven dependability and performance at competitive prices.

Specialized Solution for Power System

Protection & Automation

ASHIDA manufacturers: Numerical Protection and Auxiliary Relays that have applications in high and extra high voltage levels. ASHIDA relays are successfully installed across the globe from 0.4kV to 380kV substations. Numerical Relays have varied applications ranging from protecting feeders, transformers, motors etc.

ASHIDA also provide the Sub Station Automation, Distribution management System and SCADA System for Utility, Oil & Gas, Petro-Chemicals and infrastructure customers.

Generation Control & Automation

CRE TECHNOLOGY: is a French manufacturer that offers electronic products and electrical solutions dedicated to the control and the protection of industrial and marine generators.

Power Quality

AB Power System Solution: is leading organization in reactive Power Management & Power Quality Improvement and has a technical Joint Venture with world leader company Lifasa International Capacitors.

Specialized Solution for Mechanical System

Butterfly Valves, Ball Valves & Actuators

DelVal: Flow Controls provides a wide range of superior quality ball valves, butterfly valves, actuators and control accessories. DelVal products are fully integrated and cater to a wide spectrum of applications including Oil & Gas, Power Generation, Mining, Chemical Process, Marine, Pharmaceutical, Food & Beverage, Water and other industrial markets.

Non-metallic, Composite Pipes

Composite Pipes Industry L.L.C (CPI): is a leading manufacturer of Fiberglass Piping Systems (GRE/ GRP/ GRV) with over 44 years of combined experience in supplying piping solutions globally.

CPI has state of the art technology that serves the Oil & Gas, Petrochemicals, Refineries, Desalination and Water Treatment Industries with manufacturing, engineering and field services.

Pipes & Fittings are designed, manufactured and tested in accordance with the international codes and standards.
